### President's Message

Welcome to Florence-Darlington Technical College (FDTC). I would like to encourage you to discover the many opportunities that we have to offer students.

With more and more jobs requiring training beyond the high school level, FDTC stands ready to meet your higher educational needs by offering affordable, quality education in more than 75 fields of study - from business to allied health to machine tool to welding to nursing and more. In fact, the stellar job placement rate enjoyed by FDTC's recent graduating classes speaks to the relevance of our educational opportunities. Acknowledged as the fastest growing institution of higher education in South Carolina during the late 1990s, FDTC seeks to maximize student success through excellent customer service.

Florence-Darlington's main campus is located between the cities of Florence and Darlington on U.S. Hwy. 52 and near Interstates 95 and 20. The 100-acre campus has eight major buildings.

The college also operates remote sites in Hartsville, Lake City, Mullins, and in downtown Florence (Health Sciences Campus). The Cosmetology Center is located just down the road from the main campus in Darlington County.

Among the special programs and services located at the main campus are the Advanced Welding and Cutting Center, the Caterpillar Dealer Academy, and a CISCO Systems training laboratory. FDTC's Online College offers a host of courses and several entire degree programs via the Internet.

The first phase of the Southeastern Institute of Manufacturing and Technology (SiMT) has recently been completed on a 146-acre tract behind the main FDTC campus. An Advanced Manufacturing Center (AMC) is the centerpiece of this first phase of construction. It contains an 800-seat auditorium, a conference center, an advanced manufacturing lab, a rapid prototyping lab, a 3D/Virtual Reality Center, and the National Robotics Training Center of Excellence. The cutting-edge, strategic training and manufacturing technology solutions offered by the SiMT are designed to maximize workforce productivity in the Southeast.

Technical education is playing an increasingly prominent role in our society, and it is estimated that nearly 85 percent of all jobs, now and in the future, will require some college-level training. Whether you are a recent high school graduate pursuing a college education or a citizen dedicated to lifelong learning and personal enrichment, we are here to serve you. Let us help you start your future in a rewarding career now.

*Dr. Ben P. Dillard III*  
**FDTC President**

### Our History

Founded to attract industry to the state to provide employment for South Carolinians, the South Carolina Technical Education System began with legislation enacted in 1961 to create the South Carolina Advisory Committee for Technical Education. The Committee identified strategic locations throughout the state for technical education training centers to train people for industrial employment.

The Florence-Darlington Technical Education Center was established in 1963 and presently serves Florence, Darlington, and Marion counties. The College's initial enrollment of 250 students now exceeds 5,400 curriculum students. Its original campus of less than 10 acres has expanded to nearly 240 acres with a modern complex of eight major buildings totaling nearly 350,000 square feet.

The college is in the midst of planning and developing another 325,000 square feet of instructional space entirely devoted to the advanced technology required in today's sophisticated manufacturing environment. The college operates sites in Hartsville, Lake City, and Mullins. The college also operates a large health sciences complex in downtown Florence entirely devoted to careers in the health arena.

## Evening College

Florence-Darlington Technical College has a strong commitment to adult students who have limited time but who still want to pursue their educational goals. FDTC offers a wide selection of evening classes which begin at 6:00pm or later. Many of the traditional fifteen-week semester classes are offered as well as the popular eight-week classes.

FDTC's two eight-week terms allows students to complete courses in half the time of the traditional semester courses. In the eight-week terms students may take anywhere from one to four classes. A student may register for both evening terms at the regularly scheduled registration or register at the beginning of each term. Three semester hour classes will be held on Monday/Wednesday or Tuesday/Thursday evenings beginning at 6:00pm. Eight-week classes begin at 6:00pm and end at 8:45pm. The traditional fifteen-week classes are offered three periods each night: 6:00pm-7:15pm; 7:30pm-8:45pm; and 9:00pm-10:15pm (Summer Term - 10 weeks). Check the class schedules for courses offered other than three credit hour classes.

Our Evening College is committed to offering students a quality education at an affordable low cost and the opportunity to work full-time and meet family obligations while pursuing their educational goals. Come join the growing number of students at FDTC who have found evening classes to be the perfect solution to furthering their education!

## Off-Campus Programs

### Academic Programs for Business and Industry

FDTC provides academic courses for employees, on site at the business location, as well as on our campuses. The program has been developed to provide employees

the opportunity to continue their education around a schedule which is appropriate to their work. The employee has the same privileges as a regular student on our campus.

Each employee, who wishes to enroll in a class, must complete an application for admission to FDTC and meet all requirements for acceptance to a program of study. A person who does not wish to enter a curriculum program may enter as an undeclared student and take up to, but no more than 15 credit hours in selected courses.

## High School Dual Credit

FDTC provides academic courses on site at high schools and also on FDTC campuses for selected juniors and seniors. Any student under the age of 18 must submit a letter of permission from their high school principal or home-school principal on school letterhead to the Admissions Office prior to enrolling in the college. This program has been developed to provide students the opportunity to begin their college education, while still in high school. The student may be eligible to receive both college and high school credit for each course satisfactorily completed. In addition, high schools set the schedule which best suits the needs of their students. Each 3 credit hour course must be taught for a total of 45 instructional hours plus an exam. Students have the same privileges as any regular student on our campus.

Each student is required to complete an application for admission into the General Studies Certificate program via the FDTC college website at [www.fdtc.edu](http://www.fdtc.edu). All high school students are required to pay for their textbook(s) and tuition; however, the college fees and the technology fees are waived. Lottery funds are also available for high school dual credit students to help offset the costs of tuition when an approved student is taking more than one course within a term.

## Advanced Placement

Transfer of credits from an accredited secondary institution can place a student in advanced standing at FDTC. The Registrar will determine this decision.

Any student completing special training in military service may have their work evaluated for advanced standing, for possible transfer, by the Registrar.

Transfer of credits within one college, i.e., from one curriculum to another, are granted by the Registrar.

## Proficiency Tests

Proficiency tests are given to award students college credit for formal and informal educational experiences. Proficiency tests must be completed prior to enrollment in that course. The student will pay a \$15 testing fee to the Business Office. A student is allowed only one challenge attempt per course. The student should contact the Department Head responsible for the course for which he/she seeks credit.

## High School Articulation

Agreements with many area career/technology centers allow selected students to enter FDTC with advanced standing at no charge for the college credit awarded. Articulation agreements have been developed in these areas:

- Automotive Technology
- Business Technologies
- Civil Engineering Technology
- Computer Technology
- Machine Tool Technology
- Administrative Office Technology
- Welding

Students should contact their high school guidance counselor to complete the required paperwork for advanced standing. Credit for articulated courses is accepted for up to one year from the date of high school graduation until the student enrolls at FDTC.

## College Level Exam Program (CLEP)

College Level Exam Program (CLEP) credit is accepted. Contact the Registrar's Office for more information. FDTC does not offer CLEP testing.

## Service Member Opportunity Colleges (SOC)

FDTC is a member of the Service Members Opportunity Colleges (SOC). Students having academic credit earned at other institutions while on active duty will have their credit evaluated on a case-by-case basis.

## Transfer Credit Policy

Credit for work previously completed at another college will be granted to transfer students under certain conditions. Coursework transferred or accepted for credit toward a program must represent collegiate coursework relevant to the program, with course content and level of instruction resulting in student competencies at least equivalent to those of students enrolled in FDTC's own degree, diploma, or certificate programs. In assessing and documenting equivalent learning and qualified faculty, FDTC will use recognized guides, which aid in the evaluation for credit. Such guides include but are not limited to those published by the American Council on Education, the American Association of Collegiate Registrars and Admissions Officers, and the National Association of Collegiate Registrars and Admissions Officers, and the National Association of Foreign Student Affairs. Students must have a "C" or better at the previous institution, the course must be required in the student's specified curriculum and must be within the time limits established for certain courses. A list of time limits on courses is available from the Registrar.

Only students who have been accepted by the College and have submitted official transcripts from each school previously attended will be awarded transfer credit. The Registrar will evaluate transfer credit, confer with faculty and departments when necessary, and award credit. The Registrar will award transfer credit after acceptance and prior to the end of the first semester of enrollment. Transfer credit appears in the "Earned Hours" portion of the transcript and grade points are not transferable from previous institutions.

## Residency

### Residency Requirements for Admission

Residents of South Carolina as defined by state law are independent persons who have been domiciled in South Carolina for a period of no less than 12 months who have full-time employment in the state and the dependents of such person. Payment of South Carolina property taxes or living with relatives other than parents except under court decree is not a factor in determining legal state residence. If there is any question, contact the Registrar at 661-8351 or the Financial Aid Office at 661-8085.

The South Carolina Illegal Immigration Reform Act requires that all students currently attending FDTC provide proof of residency in order to remain in school.

### Financial Info

For tuition and fee purposes, a resident student is one who has abandoned all prior residences and has been residing in South Carolina for at least 12 months immediately preceding the first day of classes of the term for which resident status is sought.

Students who have not resided in South Carolina or in either Florence or Darlington counties for at least 12 months prior to enrolling in classes will be required to pay out-of-state or out-of-country tuition. Tax documents and Drivers License will be used to determine residency.

Persons in the following categories may qualify to pay in-state fees without having to establish a permanent home in the state for 12 months. Persons who qualify under any of these categories must meet the conditions of the specific category on or before the first day of classes of the term for which payment of in-state fees is requested.

### Military Personnel and their Dependents

Members of the United States Armed Forces (and their dependents) who are stationed in South Carolina on active duty may be considered eligible to pay in-state fees. Armed forces shall mean federal military personnel in the United States Air Force, Army, Marine Corps, Navy and Coast Guard. When such personnel are ordered away from the state, their dependents may continue to pay in-state fees for additional 12 months. Such persons (and their dependents) may also be eligible to pay in-state fees for a period of 12 months after their discharge from the military, provided they have demonstrated an intent to establish a permanent home in South Carolina and they have resided in South Carolina for a period of at least 12 months immediately preceding their discharge. The military personnel who are not stationed in South Carolina and/or former military personnel who intend to establish South Carolina residency must fulfill the 12-month physical presence requirement for them or their dependents to qualify to pay in-state fees. To establish South Carolina resident status, such persons must establish residence in accordance with the regulations.

### Faculty and Administrative Employees and their Dependent Children and Spouses

Full-time faculty and administrative employees of South Carolina state-supported colleges and universities are eligible to pay in-state fees. Dependents of such persons are also eligible.

### Residents with Full-Time Employment and their Dependents

Persons who reside, are domiciled, and are employed full-time in the State and will continue to work full-time until they meet the 12-month requirement are eligible to pay in-state fees, provided that they have taken the steps to establish a permanent home in the state. The dependents of such persons are also eligible.

### Retired Persons

Retired persons and their dependents who are receiving a pension or annuity who reside in South Carolina and have been domiciled in South Carolina as prescribed in the Statute for less than a year may be eligible for in-state rates if they maintain residence and domicile in this state.

Persons on terminal leave and their dependents who have established residency in South Carolina may be eligible for in-state rates even if domiciled in the state for less than one year, if they present documentary evidence from their employer showing they are on terminal leave. The evidence should show beginning and ending dates for the terminal leave period and that the person will receive a pension or annuity when he or she retires.

The initial determination of residency status is made at the time of admission. The determination made at that time, and any determination made thereafter, prevails for each subsequent term until the determination is successfully challenged. The burden of proof resides with the student to show evidence as deemed necessary to establish residency status. Inquiries regarding residency requirements and determinations should be directed to the director of enrollment management. International students are not considered residents of the state until they gain permanent resident status from Immigration and Naturalization Service.

Additional information regarding residency may be found on the South Carolina Commission on Higher Education's website at <http://www.che.sc.gov/StudentServices/Residency/Residency.htm>

### Off-Campus Housing

Dormitories are not provided at FDTC. All students commute to and from class daily. Financial arrangements for rooms and apartments are on an individual basis between the student and the landlord. Students desiring any information on housing should contact the Student Activities Office.

## International Students

### Admissions

Under federal law of the United States, FDTC is authorized to enroll non-immigrant international students on F-1 and M-1 student visas. Admission is subject to the requirements stated below and approval by the Vice President for Enrollment Management and Student Services. An international student interested in applying should write to the Admissions Office for application materials. Application and all supporting documents must be received in the Office of Admissions at least three months prior to the day of registration for the term of entry.

All transcripts (submitted in English translation if the original is in another language), test scores, and other credentials become the property of the College and will not be returned or transferred to another institution.

It is recommended that all F-1 and M-1 visa students provide official immunization records and related documentation to verify condition of good health. Additionally, visa students are responsible for obtaining health and accident insurance.

All F-1 and M-1 visa students are subject to an out-of-country tuition as set by the County Commission. Current tuition rates may be obtained from the Office of Admissions. In addition to the College's general admission requirements, international students must fulfill certain requirements.

### General Info

1. An applicant must have English language ability adequate to enable the student to profit from instruction at the college level. A student is not admitted solely for special training in English. Adequacy of English proficiency is determined by a minimum 500 score on the Test of English as a Foreign Language (TOEFL), administered worldwide by the Educational Testing Service, Box 6155, Princeton, New Jersey 08541-6155; if the test is not available in the applicant's area, results of a standardized test administered at a U. S. consulate or other authorized test center may be substituted.
2. An applicant must offer evidence of academic achievement equivalent to an American high school education with a B (above average) record in secondary school subjects and meet the minimum SAT and/or TOEFL score required for the program of his/her choice. It is the student's responsibility to submit all transcripts translated into English if the originals are in another language. The SAT and/or TOEFL should be taken prior to coming to the United States.
3. All applicants must present an affidavit of support for him/herself and for all members of his/her family who will accompany him/her to Florence during the period of attendance at the College. Estimated costs include: the out-of-country tuition fee; living expenses; textbooks and supplies; transportation to, from, and in the United States; and miscellaneous expenses. An applicant should anticipate tuition and living cost increases in subsequent years.
4. At the opening of a semester, an applicant must be at least 18 years of age. An exception to this is a graduate of an accredited United States high school.
5. All international students who are accepted must take the College's placement tests. Placement into the appropriate level of courses will be determined by the tests. International students must arrange to be on campus approximately one week prior to registration for the proposed term of entry. Failure to complete placement tests may result in denial of acceptance into programs.

### Limitations & Exceptions

1. An international student accepted by another college in the United States must attend that institution for at least one year before applying for transfer to FDTC. Transfer students from other colleges must have completed at least a "C" average and have approval for transfer from the institution of attendance.
2. A foreign national in the United States as a visitor or tourist will be considered for admission in F-1 or M-1 visa status upon completion of the application for change of status. If admitted, he/she cannot enroll until he/she provides proof of approval of status change from visitor status to F-1 or M-1 by the Immigration and Naturalization Service.

### Employment

An international student must attend the College full-time for at least a year before a request for employment is allowed. You must document urgency of financial need with extenuating circumstances. The Immigration and Naturalization Service grant approval of authorization to work.

### International Student Housing

International students must make arrangements for their own housing within the

FDTC area. The College does not provide living accommodations.

## Maximum Period of Enrollment

An international student is expected to complete a program in the most expeditious manner possible, generally in two years. Three years of post-secondary enrollment is the maximum permitted.

## Regulations for International Students

International students should become familiar with the regulations of the Immigration and Naturalization Service and assume responsibility for complying with test regulations as well as college regulations on student conduct and enrollment and comply with those regulations. A student who drops below full-time enrollment is subject to removal from the College. The Immigration and Naturalization Service will be notified in such cases.

## Types of Visas

Students with visas other than F-1 and M-1 status may be eligible for admission subject to approval of the Vice President for Enrollment Management and Student Services. If admitted, such students will be subject to out-of-country tuition.

## International Student Services

The Admissions Office is responsible for all immigration related matters, as well as programming for the international community. In addition, advisors are available to counsel and direct students in a wide variety of personal and academic areas. We promote multi-cultural awareness through a wide variety of activities. Students are encouraged to visit the Admissions Office on a regular basis and get to know the staff. We would like all international students to feel comfortable about discussing their problems with the advisors in a confidential and positive atmosphere.

It is the policy of the State Board for Technical and Comprehensive Education that students or appropriate sponsoring agencies receive a fair and equitable refund of tuition and other institutional charges upon the student's withdrawal from the College or net reduction of hours below 12 credit hours. Institutional charges are defined as tuition; room and/or board; equipment and/or books and supplies, if costs are separately identified or the College requires students to purchase items from a college affiliated vendor; and fees, required of all students, or categories of students, and are related to the student's program of study, excluding items of a pass through nature. Refund Policy for Veterans and Eligible Non-Degree Persons Under Title 38 U.S. Code

Advance payment of fees and other charges by eligible persons under Title 38 U.S. Code who fail to enter, withdraw, or who are discontinued prior to completion of the course, will be refunded in an amount which does not vary more than 10% from the exact pro-rata portion of such fees and other charges that the length of the completed portion of the course bears to its total length. The exact pro-rata will be determined by the ratio of number of days of instruction completed by the veteran to the total number of instructional days in the period for which advance payments have been made.

## Financial Aid

### Student Financial Aid

Students must be accepted for admission to the college before any action can be taken on their application for financial assistance, including scholarships, student employment, grants, or loans. Students must have a high school diploma or GED and be accepted for enrollment in an eligible program of study. Students enrolled in certificate programs of less than 16 semester credit hours, or Continuing Education Courses do not qualify to receive Federal financial aid.

Applications for financial assistance must be completed annually. The Free Application for Federal Student Aid (FAFSA) is used to apply for all forms of Federal financial aid awarded by the college. Priority for any available funds is given to students with complete applications received in the Financial Aid Center by April 1st. Applications received after that date are awarded on a continuing basis as long as funds are available. Students with completed applications will receive an official award letter in the mail. When registered, the student is allowed to charge tuition, fees, books, and supplies against the financial aid that they have been awarded. Loan checks for any remaining funds will be mailed to the student's home address approximately three weeks after classes begin. All other refund checks will be mailed by mid-term. Students must take a minimum of 12 semester hours to be considered a full-time student. Federal Pell Grant awards will be adjusted to the student's enrollment status, if the student enrolls for fewer hours. Students must maintain satisfactory academic progress in order to continue receiving financial assistance.

Applicants for employment, SEOG and loans received after April 1st will be considered according to the date received as long as funds are still available. Pell Grants are awarded continuously throughout the year. There are several federally funded programs that are available to students at FDTC. All of these programs are contingent upon the funding of the programs by the U.S. Congress.

**IMPORTANT NOTICE: Tuition, fee, and book charges are the responsibility of the student.** All institutional charges not paid by financial aid, sponsors, scholarships, loans, or other sources, must be paid by the student.

A file is only removed from the vault when appropriate written requests are filed with the Registrar or for the purpose of re-admitting a student to the College.

## Drop/Add

A student may add a course during the first three (3) days and drop a course during the first five (5) days of the term for a 15 week class. A student may add a course during the first five (5) days and drop a course during the first five (5) days of the term for an 8 week or 5 week course. This drop and add period may be adjusted under exceptional circumstances including open-entry, mini-term, evening and summer courses. Exceptions will be made only by the Academic Department Heads.

- Drop/Add dates and deadlines are published in the Catalog and the printed Course Schedule. Courses may not be added or sections changed after the Drop/Add period.
- Drop/Add forms are available in the Academic Advisor's office or Registrar Services Office located in the 100 building.
- It is the student's responsibility to initiate the proper paperwork to drop or withdraw from courses. Failure to attend a course does not constitute proper procedure for dropping or withdrawing from a course. However, you will be dropped from a course if you have never attended. Also, if you fail to pay for a course you will be removed from the class. Contact the Register Services Office for additional information.

See College Procedure for Attendance and Withdrawal from Course(s).

## Drop/No-Show

A student who does not login nor attend any class meeting prior to the drop date will be dropped as a no-show.

## Class Cancellations

A course may be cancelled if a minimum of ten students do not enroll in a section. If one of your courses is cancelled, you will be notified so that you can add another section or course during the Drop/Add period.

- Drop/Add dates and deadlines are published in the Catalog and the printed Course Schedule. Courses may not be added or sections changed after the Drop/Add period.

## Online College

FDTC was the first college in South Carolina to offer complete programs via the Internet. If your personal situation, such as your job, health, or family obligations, prevent you from attending college on campus, the Online College provides you the opportunity to receive a certificate or degree and reach your educational goals. Remember, you may also take online courses even if you attend on-campus classes in other curriculums.

## Current Online Programs

- Associate in Arts
- Associate in Criminal Justice Technology
- Associate in Leadership and Management
- Associate in Marketing
- Associate in Management
- Associate in Robotics Production
- Certificate in Accounting
- Certificate in International Business
- Certificate in Management
- Certificate in Robotics Assembly Technician

## Benefits and Points of Interest

Online classes require almost no regular class attendance. (Students will be required, at a minimum, to come to FDTC or other approved location for a supervised final exam.) Students register for online classes just as they would for on-campus classes. However, students "attend" by logging into their courses from a computer at home or work. Assignments are displayed on the web, as are instructor's lectures, study notes, and other course materials, such as multimedia and self-assessments. Students submit assignments via e-mail or file transfer they participate in online discussion groups, and take assessments within the Learning Management System. Although students must follow a schedule of assignment submission, they work at a time and a place convenient to them. Generally, students attend campus only for supervised testing or labs. Students living out of the area may obtain a proctor for their supervised testing. **You must have a GPA of 2.0 or better in order to take online classes.**

## Distance Learning

Mission: To make higher education and training more accessible to the citizens and industries served by Florence-Darlington Technical College. Delivery of programs via the Internet, ITV, and other distance learning methods enables students to take curriculum and continuing education courses; to complete degrees and certificates; and to upgrade their job skills without attending traditionally scheduled, on-campus classes.

FDTC offers numerous distance learning opportunities. In addition to Internet courses, many classes are offered via Interactive Television (ITV). Instead of having to come to the main campus, students participate in live classes via two-way audio/video from the Health Sciences, Hartsville, Lake City, and Mullins campuses.

Distance Learning is the transmission of learning opportunities to remote locations. Distance Learning will allow FDTC to deal with barriers preventing students from attending daily classes at a campus-based location. The college intends to extend learning through audio, visual and data transmission to satellite sites, other public institutions, and business and industry via:

- Telecourses
- Teleclasses
- Teleconferencing
- Internet - via Online College

## Academic Information

### Academic Programs of Study Instructional Organization

The role of Florence-Darlington Technical College is to offer one and two-year programs to a community of diverse needs. An associate degree, a diploma, or a certificate denoting satisfactory completion of work is awarded, depending upon the course of study chosen.

## I. Division of Health and Sciences

The Health and Sciences Division offers the Associate in Science degree along with comprehensive training in allied health and nursing programs which lead to certification and/or professional licensure.

## II. Division of Technical and General Education

The Technical and General Education Division provides curricula through which students master the technical, business, communication, and interpersonal skills required by area employers. Certificate, diploma, and degree programs are developed and offered in response to the employment needs of the college service area and of the State of South Carolina. General education core courses are offered to support college-wide degree, diploma, certificate, and college transfer programs. Developmental courses are also offered through this division.

## III. The Online College

The Online College provides students an opportunity to take courses without the typical time constraints associated with on-campus courses. The course learning outcomes are the same as any other course in a traditional instructional format. Students enrolling in an online course must have access to a computer and internet service.

## Academic Advising

Students are assigned advisors when they enter FDTC. Students should see their advisor each semester to plan a schedule of classes for the next semester, or register through WebAdvisor. Each student is responsible for completion of all requirements in their program. Students are encouraged to consult with their advisor or the Enrollment Management staff in the 100 building whenever questions about academics arise.

## Student Course Loads

Students who wish to enroll in nineteen (19) credit hours or more must have the approval of their appropriate Associate Vice President.

Students who wish to enroll in a lower level course that is not required by their declared curriculum or is below the level that they have achieved must have approval of their academic advisor and their appropriate Associate Vice President.

## Auditing of Courses

A student who desires to attend classes regularly but does not wish to take examinations or receive credit may register as an auditor. A record of classes attended will be maintained. No credit is awarded for such courses and cannot be granted at a later date. A student enrolled in a course for credit cannot change to audit after the add/drop period. Students are expected to pay normal tuition per credit hour to enroll in audited courses.

Federal regulations will not allow students to receive financial aid for the courses being audited.

## Course Substitution

Curriculum department heads have the right to authorize course substitutions for those prescribed in the standard course outlines. Such substitutions may be necessary because:

- program courses change
- content of another course is deemed equivalent
- curriculum department head determines that it will meet the student's educational objective

## Prerequisites

Many courses require prerequisite courses and/or test scores. FDTC's computer system will automatically block registration when a prerequisite course and/or placement test score is required for enrollment in the course and if FDTC records do not show that you have met the prerequisite(s).

## Prerequisite Course Regulation

Students who fail any course that is a prerequisite to another course will not be allowed to take that class until the prerequisite course has been repeated and passed or otherwise satisfactorily made up. Special approval may be granted jointly by the appropriate Associate Vice President and the student's advisor.

## Agency Requirements

Students in health majors must meet the published clinical agency requirements when participating in assigned labs. Requirements include immunizations,

background checks, and drug testing. To be in compliance with Article, 23, Section 44-7-2920 of the S.C. Code of Law, all students enrolled in AHS 141, DAT 154, DHG 154, HIM 102, MED 102, MLT 110, NUR 160, NUR 201, PNR 110, RAD 101, RES 101, and SUR 101 must complete the requirements listed above prior to being assigned to any direct care entity. Results of the background check/drug screening could affect the student's ability to complete required clinical rotations and/or become credentialed. For example, a felony conviction could make a student ineligible to take the licensing exam(s) required by the profession or prevent the student from participating in the clinical training component.

## Grade Policy

### Assignment of Grades, Grade Changes, Grades for Repeated Courses

See College Procedure for Change of Grade and Repeating Courses.

### Grade Reports

Grade reports are available to students with an active Student ID and Password online through WebAdvisor. Students who require a copy of their grades (via an FDTC Transcript) may print one from the College's WebAdvisor or request an official or student copy from the Registrar Services Office, either in person or by mail.

### Grade Appeals

If a student feels that he/she has grounds for challenging a grade, the appeal must take place within the semester following the term in which the grade was received. Example: A Spring semester grade may be appealed during Summer or Fall term; Fall grades may be appealed during Spring term; Summer grades may be appealed during Fall term. The appeal must begin with the instructor who issued the grade in question.

## Standard Grading System

The following is the official FDTC grading system.

Grade	Description	Detailed Description
A	Excellent	indicates outstanding achievement and carries 4 quality points per semester hour.
B	Above Average	indicates excellent achievement and carries 3 quality points per semester hour.
C	Average	indicates average achievement and carries 2 quality points per semester hour.
D	Below Average	indicates below average achievement, and carries 1 quality point per semester hour.
F	Failure	indicates failure of a course and no quality points are earned. The grade "F" becomes a record and cannot be deleted from a student's transcript. When the course is repeated with a higher grade, the higher grade will be used to compute the grade point average.
I	Incomplete	indicates incomplete work and is assigned at the discretion of the instructor when a student who is otherwise passing has not completed all the work required in a given term. A student with an "I" has until the beginning of exams for the subsequent semester to satisfactorily complete the course requirements. If after this date, the work has not been satisfactorily completed, the grade will be changed to an "F."
E	Examination	indicates credit earned by examination. The credit is indicated on the transcript but the grade is neither assigned quality points nor computed in the grade point average.

W	Withdraw	indicates that a course was officially (after filing appropriate form) dropped no later than the last designated instructional day of the term with a passing grade. [semester-46th day; 10 week session-32nd day; 8 week session-26th day; 5 week session-16th day] No quality points are earned and it is not included as semester hours taken in computing the grade point average.
WF	Withdraw Failing	assigned at the discretion of the instructor, indicates a student withdrew after the designated instructional day of the term. [semester-46th day; 10 week session-32nd day; 8 week session-26th day; 5 week session-16th day] The semester hours attempted will be used in computing the grade point average.
AU	Audit	indicates a course was audited and not taken for credit. A student cannot change from audit status to credit status after the drop/add period, or from credit status to audit status after the drop/add period. Credit for such courses cannot be established at a later date. Permission to audit a course must be obtained from the instructor. The semester hours audited are not computed in the grade point average.
TR	Transfer	indicates credit for a course was granted by FDTC from another accredited college. Semester hours for a transfer course are not computed in the grade point average.

For more information see College Procedure for Attendance and Withdrawal from Course(s) and Change of Grade and Repeating Courses.

### Developmental Course Grading System

The following is the official FDTC grading system for developmental courses. The grade symbols with an asterisk (\*) do not earn quality points and are not included in the GPA calculation.

Grade	Description	Detailed Description
A*	Outstanding	indicates outstanding achievement, but does not carry quality points per semester hour.
B*	Excellent	indicates excellent achievement, but does not carry quality points per semester hour.
C*	Average	indicates average achievement, but does not carry quality points per semester hour.
D*	Below Average	indicates below average achievement, but does not carry quality points per semester hour.
F*	Failure	indicates failure of a course and no quality points are earned.
SC*	Satisfactorily Completed	indicates completion in reading, English, and/or mathematics, but does not carry quality points per semester hour.
W	Withdraw	indicates that a course was officially (after filing appropriate form) dropped no later than the last designated instructional day of the term with a passing grade. [semester-46th day; 10 week session-32nd day; 8 week session-26th day; 5 week session-16th day] No quality points are earned and it is not included as semester hours taken in computing the grade point average.
WF*	Withdraw failing	assigned at the discretion of the instructor, indicates a student withdrew after the designated instructional day of the term. [semester-46th day; 10 week session-32nd day; 8 week session-26th day; 5 week session-16th day] The semester hours attempted will not be used in computing the grade point average.

### Attendance Policy

It is the responsibility of the student to attend all scheduled classes in each of the courses that he/she is enrolled. A student is considered in attendance until he/she withdraws or is absent more than 10% of the total hours that a course usually meets in a semester. When a student is absent more than 10% of the class time, the student may be administratively withdrawn from class and is subject to a failing grade. Exceptions to this policy can be made only by the appropriate Associate Vice President.

See College Procedure for Attendance and Withdrawal from Course(s).

### Attendance Policy For Internet Students

To provide you the benefits of a focused, disciplined learning experience, online courses are structured within the framework of a 16-week semester, 8-week semester or 10-week summer session. Although some courses may require that you come to campus or arrange a proctor for supervised tests and/or labs, there will be no regularly scheduled campus class attendance requirements. While there is more flexibility than in on-campus instruction, online courses do require regular participation; for example, observing assignment due dates, regularly logging in, and responding to your teacher's and classmates' correspondence, including discussion board postings. **Unless instructed otherwise by your teacher, you are required to login to the course every 48 hours. If you fail to maintain regular participation, you will be withdrawn from the course with a "WF."** In order to withdraw from the course with a "W," you must contact your teacher prior to the withdrawal deadline, which is published in the college calendar. The withdrawal policy in the FDTC Catalog will be observed. Contact your instructor concerning his/her specific participation requirements.

### Attendance Policy For Veterans

This attendance policy is required for institutions offering courses for veterans or other eligible persons enrolled in non-college degree (NCD) programs approved under Title 38, United States Code, 3676.

This policy is established to set minimum standards of attendance for student(s) enrolled in non-college degree programs receiving veteran education benefits. Wherever the word "veteran" is used, it is intended to include all persons receiving veteran education benefits.

Veterans enrolled in non-degree programs will be interrupted for unsatisfactory attendance when accumulated absences, tardies, and class cuts exceed ten (10) percent of class contact hours. \* The interruption will be reported to the Veterans Administration within 30 days of the last date of attendance (use VA Form 22-1999b).

A veteran may be re-enrolled for benefits at the beginning of the term following interruption because of unsatisfactory attendance only when the cause of unsatisfactory attendance has been removed.

Students interrupted a second time for unsatisfactory attendance will not be allowed to re-enroll for benefits in the absence of mitigating circumstances.

Mitigating Circumstances: Mitigating circumstances are those which directly hinder pursuit of a course and which are judged to be beyond the student's control. The following are some general categories of mitigating circumstances. This list is not all-inclusive.

1. Serious illness of the veteran.
2. Serious illness or death in the veteran's immediate family.
3. Emergency financial obligations or change of place of employment or work schedule which preclude pursuit of the course.
4. Active duty military service, including active duty for training.

For institutions that have a published "Leave of Absence" Policy: Student(s) receiving VA education benefits will have their benefits discontinued while on an "official leave of absence."

\* NOTE: If the institution's existing policy is more restrictive, that policy will be used.

### Graduation

#### Requirements

All candidates for graduation must meet the following requirements:

1. Complete all required courses specified in the curriculum.
2. Fulfill all financial obligations to the College.
3. Achieve a cumulative final GPA of 2.0 for all courses presented as meeting a program's course requirements.
4. Earn at least 25 percent of the total credit hours of his/her curriculum at FDTC. Exceptions can be made only by the Vice President for Academic Affairs.

Candidates for graduation must file an application for graduation with the Registrar's Office at the beginning of the semester in which curriculum requirements will be completed. A \$25 fee is required when the application is filed. If more than one degree, diploma, or certificate is earned by a student in any one semester, a separate application must be filed for each.

#### Exercises

Commencement exercises are held at the end of each Spring Semester. Fall

graduates and potential Summer graduates (with 12 hours or less to complete) may participate in the May Exercises. A rehearsal is scheduled prior to the Graduation Ceremony. All candidates for graduation are expected to attend both the rehearsal and the commencement ceremony. The Registrar Services Office should be notified if a student does not plan to attend Commencement.

## Invitations, Caps and Gowns

Graduation invitations can be ordered through the College Bookstore. Although the cost of a cap and gown is included in the graduation fee, students must report to the bookstore to be fitted during the month of February.

## College Rings

Information for ordering College rings may be obtained through the bookstore at anytime. Twice a year (generally October and February) a ring vendor representative is on campus to show rings and take orders. A deposit is required to order a ring, and a payment plan may be offered. Rings will be delivered to the students' home, C.O.D., within 10-12 weeks after the order is placed.

## English Fluency Requirements for Faculty

It is the policy of FDTC to employ means to ensure that faculty members possess adequate proficiency in writing and speaking the English language. Provisions are made for grievance procedures for students regarding the English fluency of an instructor.

## Academic Probation

Any student who fails to achieve a cumulative GPA of 2.0 shall be placed on academic probation. Once on academic probation, a student shall remain on academic probation until the student has a cumulative GPA of 2.0.

During this probationary period, the student's advisor counsels the student to repeat those courses in which the student earned less than a "C" in order to improve the student's grade point average and to enroll in COL 103, provided that the student has not previously completed COL 103 successfully. Academic advising, individualized career counseling and referrals to appropriate educational services will also be provided to help the student succeed.

**Repeating a Course:** A student may repeat any course. The complete academic record including all grades is reflected on the transcript, but only the highest grade earned in a course taken more than once is calculated in the GPA.

The Veteran's Administration, federal student assistance and SC Need Based Grant will not pay educational benefits for repeating a course for which the student previously received credit with an exception to programs that require a minimum grade to successfully complete the program being sought.

In addition to the term and cumulative GPA requirements, certain academic programs may have additional academic standards that must be met. Program probation is determined by the particular program. Support programs such as Financial Aid, Workforce Investment Act (WIA)/One-Stop, and Veterans' benefits require the student to meet specific academic standards to continue receiving benefits.

## Academic Suspension

If a cumulative GPA of 2.0 is not achieved for two consecutive semesters (excluding Summer Term), after having been placed on academic probation, the student shall then be academically suspended from the College for a period of one full semester (excluding Summer Term). Upon readmission to the College, the student shall remain on academic probation until that student achieves a cumulative GPA of 2.0. Upon readmission to the College, the cumulative GPA of 2.0 must be achieved within two semesters (excluding Summer Term).

If a student is not removed from academic probation after readmission and two semesters (excluding Summer Term), the student shall be academically suspended from the College for a period of two full semesters (excluding Summer Term).

Students placed on Academic Suspension are automatically placed on Federal Financial Aid suspension.

## Appeal of Academic Suspension

An academic suspension of one semester may not be appealed.

A student who disagrees with the second academic suspension may request a hearing by submitting an appeal in writing to the Registrar within two weeks of grades being posted to WebAdvisor.

The Student Appeals Committee will hear the appeal. A student who disagrees with the decision of the Appeals Committee may appeal to the Vice President for Academic Affairs by submitting an appeal in writing to the Registrar within two weeks of notification of the committee's findings.

## Student Employment Services

The Student Activities Office at Florence-Darlington Technical College assists students in securing employment upon graduation from their certificate, diploma or degree program, as well as assists employers in their search for new and qualified employees. If you are a graduate of FDTC and would like to request employment assistance, please contact the Student Activities Office at 843-676-8076 or 843-661-8081.

### Procedure

The Student Activities Office assists graduates and currently enrolled students in the following order of priority:

1. First priority is given to those most recently completing a degree, diploma, or certificate program to the satisfaction of the institution.
2. Second priority is given to graduates of the institution who are unemployed or are seeking a change in employment.

Students presently enrolled and interested in part-time jobs are assisted in obtaining employment as long as they remain enrolled and are making satisfactory progress towards a certificate, diploma or degree. General employment opportunities are posted on the college website. For program specific employment, the student and/or graduate would view available positions on the Florence Darlington Technical College web page @ <http://www.fdtc.edu/StudentServices/employment/default.asp>. Although employment cannot be guaranteed, efforts are made to assist students in obtaining employment and helping to make their search for employment a success. It is the responsibility of the prospective graduate to see that credentials are filed with the Student Activities Office, if the prospective graduate desires employment assistance.

## Services for Students with Disabilities

Florence-Darlington Technical College will make every effort to meet the needs of students with disabilities by providing reasonable accommodations for an equal access education.

After admission to FDTC, students requesting assistance must self-identify and provide current medical documentation (within the last three years). Medical documentation should include a diagnosis, prognosis, restrictions or limitations that the disability might dictate, as well as specified reasonable accommodations.

A qualified individual with a disability is an individual who has a physical, mental, or sensory impairment that substantially limits one or more major life activities, has a record of such impairment, or is perceived to have such impairment.

It is recommended that students notify ADA Services of special accommodation needs at least 30 working days prior to the first day of class. This notification will help ensure quality, availability, and provision of the services needed in a timely manner. For more information contact the ADA Services Office at (843) 661-8029 or (843) 661-8218. Additional information concerning students with disabilities as well as other information pertaining to ADA can be found on the National ADA site.

Florence-Darlington Technical College is an equal opportunity institution and does not discriminate on the basis of race, color, religion, national or ethnic origin, disability, sex or age in its enrollment policies, academic programs, student activities or employment practices. In compliance with Section 504 of the Rehabilitation Act and the Americans with Disabilities Act, Florence-Darlington Technical College offers equal access and opportunity in its enrollment policies and will make reasonable accommodations for individuals with disabilities to its academic programs, student services, employment practices and facilities. Florence-Darlington Technical College ensures that no otherwise qualified person will be denied these provisions on the basis of a disability.

## Collegiate Sports

Florence-Darlington Technical College fields two Junior College Athletic Association Teams, men's baseball and women's fast pitch softball. Both will play an abbreviated fall scrimmage schedule as well as a full spring season. Tryout participation is open to all students through regularly scheduled tryout camps usually held in the late spring and summer months. Both teams compete in Division I, District X of the NJCAA.

The NJCAA has some 520 member schools in 43 states and is the national governing body of 28 different sports of three divisions. Approximately 60,000 student athletes compete in one of 24 regions and every year the NJCAA hosts 48 national championship events and nine (9) football bowl games. The purpose is to promote and foster Junior College athletics on intersectional and national levels so that the results will be consistent with the total educational program of its members.

Florence-Darlington Technical College is committed to the development of our student athletes both in the classroom and on the field. For further information about FDTC Athletics visit [www.stingerathletics.com](http://www.stingerathletics.com), or contact the Athletics Office, 843.661.8292 for softball and 843.661.8291 for baseball.

## College Transfer and Co-op Programs

Students interested in any transfer or co-op program listed in this section should discuss transferring to a four-year institution with a representative of that institution early in the students' academic career at Florence-Darlington Technical College (FDTC). Furthermore, students are expected to discuss transferring to a four-year institution with an academic advisor to plan a program of study to meet the requirements of the college to which the student expects to transfer. The student's course of study will be planned and scheduled accordingly. Entrance requirements for transfer/co-op students vary widely among senior colleges and universities. Transfer of credits is a privilege granted by the institution to which the student plans to transfer and all applicants and requests for transfer of credits are evaluated individually. Each student must complete courses with grades acceptable to the college to which the student seeks to transfer.

## Transfer: State Policies and Procedures

Regulations and Procedures for Transfer in Public Two-Year and Public Four-Year Institutions in South Carolina as Mandated by Act 137 of 1995

## Background

Section 10-C of the South Carolina School-to-Work Transition Act (1994) stipulates that the Council of College and University Presidents and the State Board for Technical and Comprehensive Education, operating through the Commission on Higher Education, shall develop better articulation of associate and baccalaureate degree programs. To comply with this requirement, the Commission upon the advice of the Council of Presidents established a Transfer Articulation Policy Committee composed of four-year institutions' vice presidents for academic affairs and the Associate Director for Instruction of the State Board for Technical and Comprehensive Education. The principle outcomes derived from the work of that committee and accepted by the Commission on Higher Education on July 6, 1995, were:

- An expanded list of 86 courses which will transfer to four-year public institutions of South Carolina from the two-year public institutions;

- A statewide policy document on good practices in transfer to be followed by all public institutions of higher education in the State of South Carolina, which was accepted in principle by the Advisory Committee on Academic Programs and the Commission;
- Six task forces on statewide transfer agreements, each based in a discipline or broad area of the baccalaureate curriculum.

In 1995 the General Assembly passed Act 137 which stipulated further that the South Carolina Commission on Higher Education "notwithstanding any other provision of law to the contrary, shall have the following additional duties and functions with regard to the various public institutions of higher education." These duties and responsibilities include the Commission's responsibility "to establish procedures for the transferability of courses at the undergraduate level between two-year and four-year institutions or schools." This same provision is repeated in the legislation developed from the Report of the Joint Legislative Study Committee, which was formed by the General Assembly and signed by the Governor as Act 359 of 1996.

Act 137 directs the Commission to adopt procedures for the transfer of courses from all two-year public to all four-year public institutions of higher education in South Carolina. Proposed procedures are listed below. Unless otherwise stated, these procedures became effective immediately upon approval by the Commission and were to be fully implemented, unless otherwise stated, by September 1, 1997.

### Statewide Articulation of 86 Courses

1. The Statewide Articulation Agreement of 86 courses already approved by the South Carolina Commission on Higher Education for transfer from two- to four-year public institutions will be applicable to all public institutions, including two-year institutions and institutions within the same system. In instances where an institution does not have synonymous courses to ones on this list, it will identify comparable courses or course categories for acceptance of general education courses on the statewide list.

### Admissions Criteria, Course Grades, GPAs, Validations

2. All four-year public institutions will issue annually in August a transfer guide covering at least the following items:
  - a. The definition of a transfer student and requirements for admission both to the institution and, if more selective, requirements for admission to particular programs.
  - b. Limitations placed by the institution or its program for acceptance of standardized examinations (e.g., SAT, ACT) taken more than a given time ago, for academic coursework taken elsewhere, for coursework repeated due to failure, for coursework taken at another institution while the student is academically suspended at his/her home institution, and so forth.
  - c. Institutional and, if more selective, programmatic maximums of course credits allowable in transfer.
  - d. Institutional procedures used to calculate student applicants' GPAs for transfer admission. Such procedures will describe how nonstandard grades (withdrawal, withdrawal failing, repeated course, etc.) are evaluated; and they shall also describe whether all coursework taken prior to transfer or just coursework deemed appropriate to the student's intended four-year program of study is calculated for purposes of admission to the institution and/or programmatic major.
  - e. Lists of all courses accepted from each technical college (including the 86 courses in the Statewide Articulation Agreement) and the course equivalencies (including "free elective" category) found at the home institution for the courses accepted.
  - f. Lists of all articulation agreements with any public South Carolina two-year or other institution of higher education, together with information about how interested parties can access these agreements.
  - g. Lists of the institution's Transfer Officer(s) personnel together with telephone and FAX numbers, office address, and e-mail address.
  - h. Institutional policies related to "academic bankruptcy" (i.e., removing an entire transcript or parts thereof from a failed or underachieving record after a period of years has passed) so that re-entry into the four-year institution with course credit earned in the interim elsewhere is done without regard to the student's earlier record.
  - i. "Residency requirements" for the minimum number of hours required to be earned at the institution for the degree.
3. Coursework (individual courses, transfer blocks, statewide agreements) covered within these procedures shall be transferable if the student has

completed the coursework with a "C" grade (2.0 on a 4.0 scale) or above, but transfer of grades does not relieve the student of the obligation to meet any G.P.A. requirements or other admissions requirements of the institution or program to which application has been made.

- a. Any four-year institution which has institutional or programmatic admissions requirements for transfer students with cumulative grade point averages (GPAs) higher than 2.0 on a 4.0 scale will apply such entrance requirements equally to transfer students from regionally accredited South Carolina public institutions regardless of whether students are transferring from a four-year or two-year institution.
  - b. Any multi-campus institution or system will certify by letter to the Commission that all coursework at all of its campuses applicable to a particular degree program of study is fully acceptable in transfer to meet degree requirements in the same degree program at any other of its campuses.
4. Any coursework (individual courses, transfer blocks, statewide agreements) covered within these procedures shall be transferable to any public institution without any additional fee and without any further encumbrance such as a validation examination, placement examination/instrument, verification instrument, or any other structure, notwithstanding any institutional or system policy, procedure, or regulation to the contrary.

### Transfer Blocks, Statewide Agreements, Completion of the AA/AS Degree

5. The following Transfer Blocks/Statewide Agreements taken at any two-year public institution in South Carolina shall be accepted in their totality toward meeting baccalaureate degree requirements at all four-year public institutions in relevant four-year degree programs, as follows:
  - Arts, Humanities, and Social Sciences: Established curriculum block of 46-48 semester hours
  - Business Administration: Established curriculum block of 46-51 semester hours
  - Engineering: Established curriculum block of 33 semester hours
  - Science and Mathematics: Established curriculum block of 51-53 semester hours
  - Teacher Education: Established curriculum block of 38-39 semester hours for Early Childhood, Elementary, and Special Education students only. Secondary education majors and students seeking certification who are not majoring in teacher education should consult the Arts, Humanities, and Social Sciences or the Math and Science transfer blocks, as relevant, to assure transferability of coursework.
  - Nursing: By statewide agreement, at least 60 semester hours shall be accepted by any public four-year institution toward the baccalaureate completion program (BSN) from graduates of any South Carolina public associate degree program in nursing (ADN), provided that the program is accredited by the National League of Nursing and that the graduate has successfully passed the National Licensure Examination (NCLEX) and is a currently licensed Registered Nurse.
6. Any "unique" academic program not specifically or by extension covered by one of the statewide transfer blocks/agreements listed in #4 above shall either create its own transfer block of 35 or more credit hours with the approval of CHE staff or will adopt either the Arts/Social Science / Humanities or the Science/Mathematics block. The institution at which such program is located will inform the staff of the CHE and every institutional president and vice president for academic affairs about this decision.
7. Any student who has completed either an Associate of Arts or Associate of Science degree program at any public two-year South Carolina institution which contains within it the total coursework found in either the Arts/Social Sciences/Humanities Transfer Block or the Math/Science Transfer Block will automatically be entitled to junior-level status or its equivalent at whatever public senior institution to which the student might have been admitted. (Note: As agreed by the Committee on Academic Affairs, junior status applies only to campus activities such as priority order for registration for courses, residence hall assignments, parking, athletic event tickets, etc. - and not in calculating academic degree credits.)

### Related Reports and Statewide Documents

8. All applicable recommendations found in the Commission's report to the General Assembly on the School-to-Work Act (approved by the Commission and transmitted to the General Assembly on July 6, 1995) are hereby incorporated into the procedures for transfer of coursework among two and four-year institutions.
9. The policy paper entitled State Policy on Transfer and Articulation, as amended to reflect changes in the numbers of transfer blocks and other Commission action since July 6, 1995, is hereby adopted as

the statewide policy for institutional good practice in the sending and receiving of all course credits to be transferred. (Contact the Division of Academic Affairs for copies of this report.)

## Assurance of Quality

10. All claims from any public two or four-year institution challenging the effective preparation of any other public institution's coursework for transfer purposes will be evaluated and appropriate measures will be taken to reassure that the quality of the coursework has been reviewed and approved on a timely basis by sending and receiving institutions alike. This process of formal review will occur every four years through the staff of the Commission on Higher Education, beginning with the approval of these procedures.

## Statewide Publication and Distribution of Information on Transfer

11. The staff of the Commission on Higher Education shall print and distribute copies of these procedures upon their acceptance by the Commission. The staff will also place this document and the Appendices on the Commission's homepage on the Internet under the title "Transfer Policies."
12. By September 1 of each year, all public four-year institutions will place the following materials on the Internet websites:
  - a. A copy of this entire document
  - b. A copy of the institution's transfer guide.
13. By September 1 of each year, the State Board for Technical and Comprehensive Education will place the following materials on its Internet website:
  - a. A copy of this entire document
  - b. Provide to the Commission staff in format suitable for placing on the Commission's website a list of all articulation agreements that each of the sixteen technical colleges has with public and other four-year institutions of higher education, together with information about how interested parties can access those agreements.
14. Each two-year and four-year public institutional catalog shall contain a section entitled "TRANSFER: STATE POLICIES AND PROCEDURES." Such section at a minimum shall:
  - a. Publish these procedures in their entirety (except Appendices)
  - b. Designate a chief Transfer Officer at the institution who will:
    - provide information and other appropriate support for students considering transfer and recent transfers
    - serve as a clearinghouse for information on issues of transfer in the State of South Carolina
    - provide definitive institutional rulings on transfer questions for the institution's students under these procedures
    - work closely with feeder institutions to assure ease in transfer for their students
  - c. Designate other programmatic Transfer Officer(s) as the size of the institution and the variety of its programs might warrant
  - d. Refer interested parties to the institutional Transfer Guide
  - e. Refer interested parties to the institutional and the Commission on Higher Education's websites for further information regarding transfer.
15. In recognition of its widespread acceptance and use throughout the United States, SPEEDE/EXPRESS should be adopted by all public institutions and systems as the standard for electronic transmission of all student transfer data.
16. In conjunction with the colleges and universities, develop and implement a statewide Transfer Equivalency Database at the earliest opportunity. (As an electronic counseling guide, this computerized, online instrument will allow students and advisors to access all degree requirements for every major at every public four-year institution in South Carolina. Also, the Database will allow students to obtain a better understanding of institutional programs and program requirements and select their transfer courses accordingly, especially when the student knows the institution and the major to which he/she is transferring.)

## Development of Common Course System

17. Adopt a common statewide course numbering system for common freshman and sophomore courses of the technical colleges, two-year regional campuses of the University of South Carolina, and the senior

institutions.

18. Adopt common course titles and descriptions for common freshman and sophomore courses of the technical colleges, two-year regional campuses of the University of South Carolina, and the senior institutions. The Commission will convene statewide disciplinary groups to engage in formal dialogue for these purposes. (A common course numbering system and common course titles and descriptions for lower-division coursework at all public institutions in the state can help reduce confusion among students about the equivalency of their two-year coursework with lower-division coursework at the four-year level. To this end, a common system leaves no doubt about the comparability of content, credit, and purpose among the lower-division courses at all public colleges and universities in South Carolina. It would also help eliminate institutional disagreement over the transferability of much lower-division coursework, thus clearing a path for easier movement between the technical colleges and senior institutions.)

The college offers students in the program a variety of learning formats including accelerated, online, web enhanced, and hybrid courses that are transferable or lead to transferable courses to accommodate traditional and non-traditional students. Graduates of the program will have the necessary communication and analytical thinking skills to compete in a professional work environment or compete with university students entering their third year of a baccalaureate program.

## ASSOCIATE IN SCIENCE

### DEGREE: Associate in Science

This program prepares the student to transfer courses and the degree in its entirety to a four-year senior college. The degree stresses the natural sciences, mathematics, communications, the social sciences and humanities. Entrance requirements for transfer students vary widely among senior colleges and universities. Transfer of credits is a privilege granted by the institution to which the student plans to transfer, and all applicants and requests for transfer of credits are evaluated individually. Each student must complete courses with grades acceptable to the college to which the student seeks to transfer. Thus, it is strongly recommended that a student discuss transferring to a four-year institution with a representative of that institution early in the student's academic career at Florence-Darlington Technical College. Furthermore, it is the responsibility of each student, with the assistance of a counselor or academic advisor, to plan his/her program of study to meet the requirements of the college to which the student expects to transfer.

# MEDICAL LABORATORY TECHNOLOGY

## DEGREE: Associate in Applied Science with a major in Cnology

Medical Laboratory Technicians perform laboratory tests to obtain data that will be used by physicians and other medical staff 70% of the time to prevent, diagnose and treat illness. They are expected to microscopically examine specimens, operate automated testing equipment and inoculate culture media to identify bacteria. Medical laboratory technicians prepare specimens and operate automatic analyzers, or they may perform manual tests following detailed instructions.

MLT personnel work in hospital laboratories in the specialized areas of hematology, blood banking, microbiology, clinical chemistry, or as a generalist in all the areas. They are also employed in physicians' offices, medical schools, pharmaceutical companies, public health agencies such as DHEC and veterinarians' offices. Earnings vary depending on education, experience, level of responsibility, and degree of specialization. MLT's in South Carolina have a yearly average earnings of \$33,280 to \$38,280.

All of the courses are taught at FDTC; however, the program is under the direction of GTC. Physical therapy is a health profession which involves direct patient care of individuals who experience temporary or permanent disability due to pain, injury, disease or birth defects. Job opportunities in hospitals and rehabilitation centers are excellent, especially if the graduate is willing to relocate. Working under the supervision of a physical therapist, the physical therapist assistant works to prevent pain and disability, relieve pain, promote healing, and improve function. Beginning students should have excellent verbal and math skills. This program is accredited by the Commission on Accreditation in Physical Therapy Education.

The Physical Therapist Assistant curriculum is arranged as a One-Plus-One program. Phase I courses, qualified students are eligible to apply to Phase II, which covers academic and clinical physical therapist assistant coursework. This phase may be completed full-time over 4 successive semesters or via an Extended Track option over 6 semesters. Clinical course assignments during Phase II may require students to travel and arrange temporary accommodations away from home. Graduates of this program must pass a national licensure exam to practice as a physical therapist assistant.

## RADIOLOGIC TECHNOLOGY

### DEGREE: Associate in Applied Science with a major in Radiologic Technology

Radiographers use radiation equipment to produce images of the tissue, organs, bones, and vessels of the body, as prescribed by physicians, to assist in the diagnosis of disease or injury. Radiographers use problem-solving and critical thinking skills to perform medical imaging procedures. They must be able to communicate effectively with patients, other health professionals and the public. The radiographer must display competence and compassion in meeting the special needs of the patient. Additional duties may include evaluating radiologic equipment, providing patient education, and managing a medical imaging department.

Radiographers are employed in health care facilities including specialized imaging centers, urgent care clinics, and private physician offices. According to the Bureau of Labor Statistics 2005 Occupational Outlook Handbook, the median annual income for radiologic technologists is approximately \$42,300. The projected growth in job opportunities for radiologic technologists will be in the 28% range over the next decade.

## RESPIRATORY CARE

**DEGREE: Associate in Applied Science with a major in Respiratory Care**

Respiratory therapists work closely with physicians and nurses in the treatment and diagnosis of various breathing disorders. Respiratory therapists, practicing under a physician's direction, assume primary responsibility for all respiratory care therapeutic treatments and diagnostic procedures, including the supervision of respiratory therapy technicians. Respiratory therapists are also more likely to provide complex therapy requiring considerable independent judgment, such as caring for patients on life support in hospital intensive care units. Respiratory therapists are required to have an in-depth knowledge of heart-lung physiology, effective communication skills, problem solving skills, integrity, compassion, tolerance, ethics, and effective stress coping skills. Graduates are also eligible to apply for a Bachelor of Science (B.S.) program in Respiratory Care at a senior college.

Respiratory therapists are employed in health care facilities including acute care hospitals, rehabilitation hospitals, skilled nursing facilities, and home care. According to the Bureau of Labor Statistics Web site, the median annual income for respiratory therapists was approximately \$52,200 for May 2008. Employment of respiratory therapists is expected to grow by 21% through the year 2018, because of substantial growth in numbers of the middle-aged and elderly population -- a development that will heighten the incidence of heart and lung disease. For more information on the profession, go to [www.aarc.org](http://www.aarc.org).

Applications are accepted April 1 – April 30. All prerequisites must be completed by the end of the Spring Semester in which you apply. Respiratory Care application, entrance map, and advising worksheets may be downloaded or printed at <http://www.fdtc.edu/academics/programs/catalog/forms/default.asp>.

## EARLY CHILDHOOD DEVELOPMENT

### DIPLOMA: Diploma in Applied Science with a major in Early Childhood Dev.

Early childhood and child-care workers nurture and teach preschool children in centers designed for childcare. These workers play an important role in a child's development by caring for the child when the primary caregivers are at work or away for other reasons. They instruct children in activities designed to promote social, physical, emotional, and intellectual growth. This is accomplished by planning for individual and group activities that include small group lessons, one-on-one instruction, and play.

Early childhood and child-care workers are employed in private and public centers, school systems, community and state agencies, as well as religious institutions. According to the U. S. Bureau of Labor, the average for early childhood and child-care workers is \$15,100. The projected growth in job opportunities for early childhood and child-care workers is 21-35% for the next ten years.

## EXPANDED DUTY DENTAL ASSISTING

### DIPLOMA: Diploma in Applied Science with a major in Expanded Duty Dental Assisting

Dental Assistants perform a variety of duties including those related to patient care, as well as many office and laboratory responsibilities. During patient care they work chair-side assisting dentists as they examine and treat patients. Dental Assistants must be reliable, have good manual dexterity, and be able to communicate and work effectively with patients and other members of the dental office staff. Dental Assistants are employed, almost exclusively, in private dental offices. Some employment opportunities are available in public and government facilities. Nationally, the starting salary for a Certified Dental Assistant is approximately \$20,000 plus available benefits. As the population grows and as dentist's workloads increase, there is an increasing need for more trained Dental Assistants.

## EARLY CHILDHOOD DEVELOPMENT

**CERTIFICATE: Certificate in Applied Science with a major in Early Childhood Dev.**

Early childhood and child-care workers nurture and teach preschool children in centers designed for childcare. These workers play an important role in a child's development by caring for the child when the primary caregivers are at work or away for other reasons. They instruct children in activities designed to promote social, physical, emotional, and intellectual growth. This is accomplished by planning for individual and group activities that include small group lessons, one-on-one instruction, and play.

Early childhood and child-care workers are employed in private and public centers, school systems, community and state agencies, as well as religious institutions. According to the U. S. Bureau of Labor, the average for early childhood and child-care workers is \$15,100. The projected growth in job opportunities for early childhood and child-care workers is 21-35% for the next ten years.

## MEDICAL ASSISTING

### CERTIFICATE: Certificate in Applied Science with a major in Medical Assisting

Medical assistants are multi-skilled allied health professionals who work under the supervision of physicians in their office practices and in other medical settings. In accordance with state law, they perform a broad range of administrative and clinical duties. Medical assistants help other health care providers examine and treat patients and perform routine tasks needed to keep offices running smoothly. Assistants who work in a small office or health care facility may handle both clinical and clerical duties. Assistants working in an office with a sizable staff will probably specialize in either the clinical or administrative aspects of the job.

Employment of medical assistants is expected to grow much faster than the average for all occupations. The earnings of medical assistants vary widely, depending on experience, skill level, and location. Average hourly wages for medical assistants with more than five years of experience ranged from \$10.50 to \$14.00. Wages were higher in the Northeast and West and lower in the Midwest and South.
