## Policy Description

Any person who is entitled to free tuition benefits under federally established, Veteran's benefits guidelines, shall be allowed to register in any course offered at this institution that is taught on a tuition-only basis. That is to say those courses which require tuition and supplies as a basic part of the course, and charged as such, would not be available to the student free of charge. An example of such a course is cake decorating. The benefit applies to tuition only -- no textbooks or supplies.
