Policy Description

In the event of an emergency evacuation situation, Florence-Darlington Technical College will execute predetermined plans and procedures to expedite appropriate communications for campus/community response services and to provide for safe and orderly evacuation of college facilities when deemed necessary. Campus emergency plans support the protection of college property and, most importantly, the saving of lives. Emergency situations may include fire, medical emergencies, adverse weather, hazardous material spills, threats and/or acts of terror, utility emergencies, and bomb threats.
